# About Program

Cloud Security & FedRAMP training program provides the essential technical Cloud knowledge and FedRAMP skills required for both the providers (CSPs)and as well as stakeholders. The Federal Risk and Authorization Management Program (FedRAMP) is a US government-wide program that provides a standardized approach to assessing and monitoring cloud-based systems' security. Achieving FedRAMP authorization can be a challenging task without proper training. Certcop FedRAMP training will cover all requirements and cover some common pitfalls that CSPs may encounter during FedRAMP efforts and offer proven guidance to avoid them. CSPs can save time and money on the way to achieving government sector growth by learning about all the requirements, 7 Pillars of Self-Assessment, a more profound understanding of FedRAMP, and the level of effort that is required to complete a FedRAMP assessment.

# Exam Details

**Course Name :** Certified CyberCop – FRCS

**Required exam –** FRCS-CertCop-003

**Number of questions –** Maximum of 100

**Types of questions –** Multiple-choice and performance-based

**Length of test –** 180 minutes

**Passing score –** 70% – This test has no scaled score; it's pass/fail only.

**Languages –** English

**Retirement –** Usually three years after launch

**Testing Provider –** Online proctoring: ExamIT.com

**Certification Exam Voucher –** $395 USD

# Exam Details

**Recommended Experience -** A minimum of two or more years of cloud technology experience or equivalent training in the Cloud technology space. CompTIA Cloud Essentials and/or Cloud+ is a plus.

**Languages -** English

**Retirement -** Usually three years after launch

# Course Content

**CERTCOP**
CERTIFIED CYBER COP

1. FedRAMP Disclaimer

2. FedRAMP Introduction

3. FedRAMP Requirements

4. Infrastructure as a Service

5. Platform as a Service

6. Software as a Service

7. Cloud Cybersecurity

8. Application Security

9. Best Practices

10. Security Assessment Plan

11. Continuous Monitoring Strategy

12. Penetration testing

13. System Security Plan (SSP) Control

14. Kali Linux

15. Git and Github

16. Data Security and Cloud

# Clients Testimonials

Got certified in Cybercop Red Team tutors are just great. They are very practical in their approach and help you learn things faster.
**Bark - Security Analyst**

The instructor was great and had amazing energy throughout. He also added a lot of additional material and customized the class. I really got what I needed out of this course.
**AutoDesk**

I enjoyed the Red Team course and want to stick with you guys for more training in the near future for Reconisense, Cloud Security, and Report Writing.
**Marcus - Managing Director**
